

# SOLAR CONTROL WINDOW FILM

**ALPINETINT**

# Keep cool with solar control window films.

Solar control window films reflect the sun's heat away from your home reducing up to 82% of that heat from entering through your windows, and blocking up to 99% of the sun's harmful rays, the single largest cause of fading.

Your home stays cooler, increasing comfort for you and your family, while lowering costly air conditioning expenses and reducing damage to the belongings in your home.

Your valuables, like fabrics, wallpaper, natural wood floors, photos and paintings can be kept in pristine condition without the worry of the sun causing damage and fade.

Struggling with annoying glare on TV's and computers?

Solar control window films significantly reduce glare and excessive light helping to create the right light environment for work, relaxing and entertaining.

Aesthetically pleasing options for solar control window film including clear, smoky, reflective and mirrored. You can customise your look to achieve the right aesthetics and privacy, letting in an optimal amount of light, without the heat.

With manufacturers' warranties and professional installation, you can rest assured you'll get the quality product and finish you deserve.

Professionally installed by AlpineTint, solar control window film is the right choice for both the environment and your budget.
